## PCQ-Activity Sheet-Number 7

These activities are designed to cater for E,  $D/D^*$ ,  $C/C^*$  and above. You can some of the activities or all of them. It's up to you!

of there's which they be seen and

<ol> <li>When leading a horse where do you apply the pressure of you want it to move forward?</li> <li>When you are leading a horse and you want it to slow down what could you do with your steps?</li> <li>When I am turning my horse in hand which way should I teach the horse to turn first? Why?</li> <li>If I am leading my horse and want it to stop and it takes a long time for the horse to respond what can I do to make the response quicker?</li> <li>Answer true of false for these statements.</li> <li>A horse should respond immediately to the aid to stop.</li> <li>TRUE FALSE</li> <li>The pressure applied to the horses mouth through the reins should be released.</li> <li>TRUE FALSE</li> <li>Explain the pressure and release method when teaching a horse to stop or slow down.</li> </ol>		
<ul> <li>3. When I am turning my horse in hand which way should I teach the horse to turn first? Why?</li> <li>4. If I am leading my horse and want it to stop and it takes a long time for the horse to respond what can I do to make the response quicker?</li> <li>5. Answer true of false for these statements.</li> <li>• A horse should respond immediately to the aid to stop.</li> <li>TRUE FALSE</li> <li>• When leading the horse the handler should be standing in front on the horses head.</li> <li>TRUE FALSE</li> <li>• The pressure applied to the horses mouth through the reins should be released.</li> <li>TRUE FALSE</li> </ul>	1.	When leading a horse where do you apply the pressure if you want it to move forward?
<ul> <li>4. If I am leading my horse and want it to stop and it takes a long time for the horse to respond what can I do to make the response quicker?</li> <li>5. Answer true of false for these statements.</li> <li>• A horse should respond immediately to the aid to stop.</li> <li>TRUE FALSE</li> <li>• When leading the horse the handler should be standing in front on the horses head.</li> <li>TRUE FALSE</li> <li>• The pressure applied to the horses mouth through the reins should be released.</li> <li>TRUE FALSE</li> </ul>	2.	When you are leading a horse and you want it to slow down what could you do with your steps?
what can I do to make the response quicker?  5. Answer true of false for these statements.  • A horse should respond immediately to the aid to stop.  TRUE FALSE  • When leading the horse the handler should be standing in front on the horses head.  TRUE FALSE  • The pressure applied to the horses mouth through the reins should be released.  TRUE FALSE	3.	When I am turning my horse in hand which way should I teach the horse to turn first? Why?
<ul> <li>A horse should respond immediately to the aid to stop.</li> <li>TRUE FALSE</li> <li>When leading the horse the handler should be standing in front on the horses head.</li> <li>TRUE FALSE</li> <li>The pressure applied to the horses mouth through the reins should be released.</li> <li>TRUE FALSE</li> </ul>	4	
• When leading the horse the handler should be standing in front on the horses head.  TRUE FALSE  • The pressure applied to the horses mouth through the reins should be released.  TRUE FALSE	5.	Answer true of false for these statements.
<ul> <li>When leading the horse the handler should be standing in front on the horses head.</li> <li>TRUE FALSE</li> <li>The pressure applied to the horses mouth through the reins should be released.</li> <li>TRUE FALSE</li> </ul>		A horse should respond immediately to the aid to stop.
• The pressure applied to the horses mouth through the reins should be released.  TRUE FALSE		TRUE FALSE
<ul> <li>The pressure applied to the horses mouth through the reins should be released.</li> <li>TRUE FALSE</li> </ul>		• When leading the horse the handler should be standing in front on the horses head.
TRILE FALSE		TRUE FALSE
		• The pressure applied to the horses mouth through the reins should be released.
6. Explain the pressure and release method when teaching a horse to stop or slow down.		TRUE FALSE

•	The handler should always be wearing
•	When asking the horse to stop the handler
•	Where would be a good place to practice the stop, go forward, slow down and turn aids with your horse/pony.

Do you have a picture of you when you were young with your horse? Your club might be able to do a who am I with pictures of members when they were young with their horse?
