## BIO-SECURITY POLICY

Our event bio-security plan is a set of preventative measures and actions aimed at reducing the risk of infectious diseases and pests on and off the venue and between persons and horses at the venue. All horses' owners and competitors should be aware that there is a bio-security obligation to take all reasonable steps to ensure your activities do not spread a pest, disease, or contaminant. Competitors are to ensure good bio-security practices at home and at the event and to follow the instructions of the organising committee or risk expulsion from the event. Horse and Participant Health Declaration forms are a mandatory requirement for all events. Other biosecurity and workplace health and safety measures that aim to provide the safest environment for horses, competitors, volunteers and visitors include-

- . No horses with signs of illness are to be brought onto the grounds
- . No communal horse water troughs are available at this event
- . Do not share equipment, including food and water containers between horses
- . Competitors are responsible for cleaning up manure from yards and placing it in the designated area. Please bring your own rake/shovel
- . Competitors are required to advise the event organisers immediately if a horse is sick. Stop all essential contact with the sick horse. Do not allow children to have close contact with the sick horse. In the event of horse movement restrictions, participants are responsible for the care, maintenance and costs of their own horses and themselves, including but not limited to feeding, bedding, veterinary costs and their own personal needs. Everyone handling horses should wash or sanitise hands between contacting different horses

If a horse is confirmed to have an infectious disease the owner/lessee will be responsible for all veterinary costs and if the venue is locked down and quarantined will be responsible for all costs associated with this. In the unlikely event of a bio-security incident the Organising Committee will implement an event bio-security plan. All persons concerned will be notified regarding the incident and expected to follow the directions given by the Organising Committee. Everyone will be expected to remain at the venue until cleared to leave by the Organising Committee.
